Director – D Faulkner

H&M Property services have recently completed a number of projects at Ryefield Primary School: Relocation and total refurbishment of the Medical and Site Manager Rooms, as well as the re-design and full refit of our new inclusion facility.

The works were carried out to the highest standard, by skilled workmen and completed within the agreed timescales. At all times the safety of pupils and staff was a priority.

We are delighted with the quality of the work, and as a result H&M Property services have recently been awarded the job of refurbishing the staff toilets. In addition they have been invited to submit quotations for a number of other extensive projects that will take place later this year.

I have no hesitation in recommending their services.

F Bool
School Business Manager
