To whom it may concern.

Having recently decided to refurbish our entrance hall and staffroom we collected several quotes and engaged Mr Faulkner's company, H & M Property Services to carry out the work.

From the beginning we found Mr Faulkner very helpful and reliable. The organising of the quote, the paperwork and indeed the work undertaken were all done very efficiently and competently.

We had quite a quick timetable for the work as we wanted to fit it into the half term holiday. This meant H&M only had a week and a day to complete the job. The company showed themselves to be very well organised. They always arrived on time, worked all day and were able to finish the job within the tight timescale we had given them.

The work done is of a highly professional standard and has been admired by all our staff and our County Building Surveyor who came to check the job on completion.

Mrs J Baker
