Reference – Refurbishment of Concentric Consulting Ltd - Head Office

To whom it may concern

H&M Property Services are commercially competitive, trustworthy, efficient, hard working and an open and honest company.

H&M Property Services undertook the refurbishment of our Head Office in autumn 2011. The program was restricted with H&M having to undertake the work in one weekend and the following two working days whilst the office was closed. The work included a full program of redecoration, repairs to the door furniture and locks removal of shelving and fitted furniture, making good, and replacement of all the vertical blinds.

H&M moved and protected all the loose furniture as required, undertook a deep clean following the work including a carpet clean that made the old carpet look like a new, and re set all the office furniture ready for Wednesday morning

Under the management of David Faulkner the team worked hard and efficiently, nothing was too much trouble

I would not hesitate recommend this company for work of a similar nature
